

Professional Supervision for Spiritual Directors Online Certificate Training

Come away to some lonely place all by yourselves and rest for a while (Mk 6:31)

- This course is designed to form experienced spiritual directors in the art and practice of supervision for those engaged in the ministry of Spiritual Direction. The most important aspect of the Director's role is to 'stand with' the directee.
- Supervision enhances the ministry of spiritual direction by attending to the Director and his or her interior movements that occur during a spiritual direction session, which would prevent the Director from 'staying with' the directee on their holy ground.
